

Seed Return Form – Richmond Community Seed Library

We encourage seed returns to meet the following requirements:

- 1. Seed saved within the past 2 years
- 2. Seed comes from a parent plant that was
 - a. Self-pollinating/Self-fertile
 - b. Open-pollinated
 - c. Grown organically
- 3. Seed has been adequately dried by the seed saver prior to arriving at the Seed Library

Member name (first and last): _____

Contact information (if not a member) Phone: _____

Email: _____

Details of Seed Being Returned

Type (ie tomato) _____

Variety (ie wild cherry) _____

Genus and species (ie *Solanum lycopersicum*) _____

Year seed was harvested (ie 2015) _____

Seed source of parent plant (ie West Coast Seeds) _____

Please check whether the parent plant was a hybrid (F1) or open pollinated (OP) variety:

F1 OP Don't Know

Is this seed self-fertile? (see Seed Saving Chart): yes no don't know

Was this seed grown organically? yes no

How far was the parent plant from other varieties of the same type? _____

Please describe how you dried the seed (ie: dried on the vine in brown pods through one week of very hot, dry weather. Please provide as much information as possible so we can be confident the seeds will store well until they are taken out by other members.)

We'd love to hear any stories about this seed or your experiences saving seed.

Is there anything else you would like to tell us about this seed?
